

Fog

A Novel
by Rana Bose

Pre-order now for April 2019 at <https://www.barakabooks.com/catalogue/fog/>

A small plane was blown up in an act of sabotage several years ago over Eastern Quebec, Canada. All the passengers and crew were killed. The incident was quickly analyzed and termed a mechanical failure. The case was declared cold, in a rush. What intrigue and what unseen, powerful forces could hush up such a catastrophic incident?

A young actor from Montreal dies in Afghanistan. Killed by a missile from a drone. His death opens up wounds and discussions that are not in the public domain. These two seemingly disparate events form the backbone of a compelling contemporary thriller, set in the Main district of Montreal and in the blue-green mountains of Kandahar.

Three friends—an eccentric dancer with a destructive split personality, an actor and tragic neighborhood hero who climbs out of the hood and destroys all existing notions about him, and the narrator, a non-descript follower who changes his life dramatically and takes control after a brutal assault—work together to de-freeze the cold case and burn up the fog.

Rana Bose is an author, playwright, poet, and dramaturge. *Fog* is Bose's third novel. He has written and staged eleven plays that have been performed in many cities. He is the founding editor of Montreal Serai. Born and raised in Kolkata (Calcutta), Rana Bose completed his engineering studies at Washington University, and has lived in Montreal since the 1970s

Praise for *Fog*

“Suspenseful and sublime, *Fog* is a powerful novel of intrigue and love, family and friendship in which fog is a feeling ‘like a tenderness of the soul.’ Grounded in place with exquisite detail and held aloft by an inspiring worldview, this is a story with unforgettable characters whose entanglements lead us through the magically rendered streets of Montréal and across continents in search of adventure and truth.”—**Cora Siré, author of *Behold Things Beautiful* and other books.**

“Sometimes the fog is a moist mist which beautifully frames our deepest intimacies, sometimes it is a translucent curtain drawn to mask the pain of exile and displacement, and sometimes it is an obscuring darkness where all moral movement seems impossible. But Rana Bose’s characters join together to find new ways forward. They emerge from the fog by recognizing the history of “the Main” while seeing it anew.”—**Michael Springate, author of *The Beautiful West* and *The Beloved God***
